OLED Materials Market Tracker – 2Q21 Analysis

Detailed Contents & Overview

Senior Principal Analyst, Displays

askananalyst@omdia.com

Contents

•	Overview	5	 AMOLED panel maker status: Companies in Taiwan 	33
			 AMOLED panel maker status: Companies in Japan 	35
•	Executive summary	6		
			 3. AMOLED materials demand analysis 	36
•	Definitions and abbreviations	7	SDC demand: 2Q19–2Q21	38
		•	HT material	38
	4. ANAOLED westerials introduction	0	 EM material: Red host and dopant 	39
•	1. AMOLED materials introduction	8	 EM material: Green host and dopant 	40
	- OLED fundamentals	9	 EM material: Blue host and dopant 	41
	- OLED materials by layer	10	 ET material 	42
	Characterization of emission OLED materials	11	aET material	43
	 Small molecule and polymer: Color patterning process 	12	RGB prime (R', G', B') material	44
	Various OLED color patterning processes	13	 CP material 	45
	Emission mechanism: LED vs. OLED	14	Summary	46
	Emission mechanism: Fluorescence and phosphorescence	15	 LG Display demand: 2Q19–2Q21 	48
	 Fluorescence and phosphorescence: Emission efficiency and materials 	16	 HT material 	48
	- Common materials: HI/HT/ET/EI	17	 EM material: Red host and dopant 	49
	 RGB AMOLED vs. white-CF AMOLED (WOLED) 	18	 EM material: Green host and dopant 	50
			 EM material: YG and dopant 	51
•	2. AMOLED industry and major makers	19	 EM material: Blue host and dopant 	52
	 AMOLED panel unit demand forecast 	20	 ET material 	53
	 AMOLED panel area demand forecast 	22	Others	54
	 AMOLED panel maker status: SDC 	24	Summary	55
	 AMOLED panel maker status: LG Display 	26	•	
	 AMOLED panel maker status: Companies in mainland China 	30		

Contents

•	Global materials demand forecast	57	 Material supply chain: M9 	84
	 FMM RGB-type demand forecast: 1Q19–4Q25 	59	 Material supply chain: LT2 	86
	 WOLED/QD OLED-type demand forecast: 1Q19–4Q25 	61	 Material supply chain: M8 	88
	 Global material demand forecast: 1Q19–4Q25 	63	 Material supply chain: M7 	90
			 Material supply chain: New-M4 	92
•	5. Pricing and market value forecast	65	 Material supply chain: M6 	94
	Price analysis	67	 Material supply chain: M5 	96
	– HT material	67	 Material supply chain: M4 	98
	 EM material: Red host 	68	 Material supply chain: M2 	100
	 EM material: Green host 	69	- LGD	102
	 EM material: Blue host 	70	 Material supply chain: RS-J/RS-K 	102
	 ET material 	71	 Material supply chain: KS18 and KS18A 	104
	 HB material 	72	 Material supply chain: KS17 	107
	 Other materials 	73	 Material supply chain: KS15 and KS15A 	109
	 Market value forecast: 1Q19–4Q25 	74	 Material supply chain: KS14 and KS14A 	112
•	 Outline and methodology 	74	 Material supply chain: KS13 	115
	– FMM RGB-type	75	 Material supply chain: WB-D/WB-E 	117
	- WOLED-type	77	 Material supply chain: CW16 	119
	 Global material market forecast in value 	79	 Material supply chain: CW14A and CW14B 	123
			 Material supply chain: CW13 	125
•	6. Competition analysis: Supply chain	81	- BOE	127
	- SDC	82	Visionox	129
	Material supply chain: M10/M11	82	Everdisplay	131
		02		

Contents

	7. Competition analysis: Market share	133		 Smartphone comparison: 5.5-inch QHD AMOLED vs. LCD 	164
	- HT material	134		 Smartphone comparison: 5.5-inch QHD rigid vs. flexible 	166
	 EM material: Red host and dopant 	136			
	 EM material: Green host and dopant 	138	•	9. New technology and market trend update	168
	 EM material: Blue host and dopant 	140		 OLED materials development issues 	169
	– ET material	143		 The evolution of AMOLED pixel structures for the Samsung Electronics 	
	 Functional aid material 	145		Galaxy series	171
	 OLED materials from Japan to Korea 	147		 The importance of phosphorescence for high resolution 	173
	 OLED material makers in China 	148		 Power consumption issues 	175
				 The development of OLED materials 	176
•	8. AMOLED panel cost analysis	149		 New emission mechanism: Hyperfluorescence 	177
	 AMOLED material cost forecast: TV 	150		 Novaled's PIN OLED technology 	178
	55-inch (3840x2160) oxide/WOLED at Gen 8.5 (full substrate)	151		 OLED solution deposition for material consumption reduction 	179
	65-inch (3840x2160) oxide/WOLED at Gen 8.5 (full substrate)	153		 Solution materials 	180
	65-inch (3840x2160) oxide/WOLED at Gen 8.5 (MMG)	155		 Polymer OLED with simple-layered structure 	181
	 TV comparison: 55-inch (3840x2160) AMOLED display vs. LCD 	157			
	 AMOLED material cost forecast: Mobile phone 	158	•	10. Appendix	182
	 7.6-inch (2208x1768) flexible LTPS/RGB OLED at Gen 6 (half-cut substrate) 	158			
	 6.9-inch (3200x1440) flexible LTPS/RGB OLED at Gen 6 (half-cut substrate) 	159			
	 6.7-inch (2778x1284) flexible LTPS/RGB OLED at Gen 6 (half-cut substrate) 				
	 5.8-inch (2960x1440) flexible LTPS/RGB OLED at Gen 6 (half-cut substrate) 				
	 5.1-inch (2560x1440) LTPS/RGB OLED at Gen 5.5 (quarter-cut substrate) 	162			
	 1.5-inch (390x312) flexible LTPS/RGB OLED at Gen 6 (half-cut substrate) 	163			

Overview

- Chapter I An introduction to OLED's structures, materials, and manufacturing technologies
- Chapter II Covers trends in the AMOLED industry and the latest news on dominant AMOLED panel makers
- Chapter II The Omdia outlook for AMOLED panel makers in mainland China, Taiwan, and Japan and a forecast of demand by AMOLED application through 2024
- Chapter III An analysis of the demand for organic light-emitting materials from the two market leaders, Samsung Display (SDC) and LG Display
- Chapter III An analysis of quarterly demand from the second quarter of 2019 (2Q19) to the second quarter of 2021 (2Q21) and an exploration of the materials used in an AMOLED display's various layers
- Chapter IV Quarterly forecasts of the demand for materials used during the fine metal mask process to produce small/medium AMOLED panels and the demand for materials used to produce large WOLED/QD OLED TV panels

- Chapter V Covers the trends in average trading prices and provides a market outlook in terms of value
- Chapter VI Reviews SDC's and LG Display's AMOLED panel supply chain
- Chapter VII An analysis of the market share for each material used in mass production during 2020
- Chapter VIII A comparison of AMOLED panel costs by panel size, type, and resolution based on the Omdia OLED Display Cost Model
- Chapter IX Covers trends in the development of display technologies and OLED materials
- Chapter X A brief explanation of the Omdia research methodology

Ready to learn more?

The OLED Materials Market Tracker from Omdia provides demand, revenue, price and forecasts for OLED materials by material type and maker. This report helps you understand the supply chain of OLED materials and each maker's share, as well as technology trends for OLED material development.
